Forma za popunjavanje

Sa leve strane forme, nalazi se owl-carousel slider sa crossfade efektom, sa promenom slike na svakih 10 sekundi. Desno se nalazi forma za popunjavanje podacima koji se proveravaju regularnim izrazima. Korisnik unosi osnovne podatke o sebi i bira koji ce automobil da rentuje na određeni broj dana. Ukoliko korisnik ne unese ispravne podatke, izlaskom iz tog polja, ispisuje se greska i polje dobija crvenu borduru. Zajedno sa greskom prikazuje se i tooltip (Bootstrap 4) koji ako korisnik pređe mišem preko njega, olakšava korisniku unos ispravnih podataka. Korisnik ima opciju da bira između metoda plaćanja (Cash ili Credit card). Ukoliko izabere opciju da plaća karticom, dodatno se dinamički ispisuju nova 3 polja za unos podataka sa kartice, ta polja isto sadrže proveru regularnim izrazima. Korisnik isto mora da unese datum kada bi mu odgovaralo da započne trajanje usluge. Ograničen je da ne moze istog dana da zapocne trajanje i da istog i zavrsi, usluga maksimalno moze da traje 30 dana. Dok ne izabere „Pick up" datum, „Drop off" unos je zabranjen, „Pick up" datum je ogranicen tako da korisniku nije omoguceno da izabere bilo koji datum pre tekućeg datuma. „Drop off" datum se proverava tako da korisnik ne može da unese datum pre današnjeg. Isto će se tako ispisati greška ukoliko korisnik izabere „Drop off" datum da traje duže od 30 dana od početka usluge koju je zadao u prethodnom polju. Korisnik isto ima opciju da bira brend automobila i na osnovu koji izabere, nakon toga se dinamički ispisuju dostupni modeli tog brenda. Nakon što korisnik ispravno unese podatke u polje, to polje dobija zelenu borduru i greška se uklanja. Ako su svi podaci ispravni, korisnik pritiskom na dugme „Request Now!" salje podatke i nakon toga se dinamički ispisuje modal sa porukom da je uspešno poslao zahtev za odredjeni automobil i ispisuje se ukupna cena tog automobila za „x" dana koliko je korisnik izabrao. A ako korisnik ponovo pokusa da podnese zahtev, pomocu local storage-a se proverava da li je korisnik vec jednom poslao podatke, ako jeste ispisuje mu se modal koji mu govori da je vec podneo zahtev za odredjeni automobil i da moze ponovo da podnese zahtev tek nakon sto istekne tekuci period trajanja usluge. Proverava se tako sto se poredi tekuci dan sa danom isteka u local storage-u.

Forma koja zadovoljava jedino polje za ime i prezime

Tooltip za pomoć pri unosu podataka

Dodatna tri polja ukoliko korisnik izabere plaćanje karticom

Forma koja zadovoljava sva polja

Modal koji se ispisuje nakon uspešnog slanja

Modal koji se ispisuje nakon sto korisnik pokusa ponovo da podnese zahtev za auto
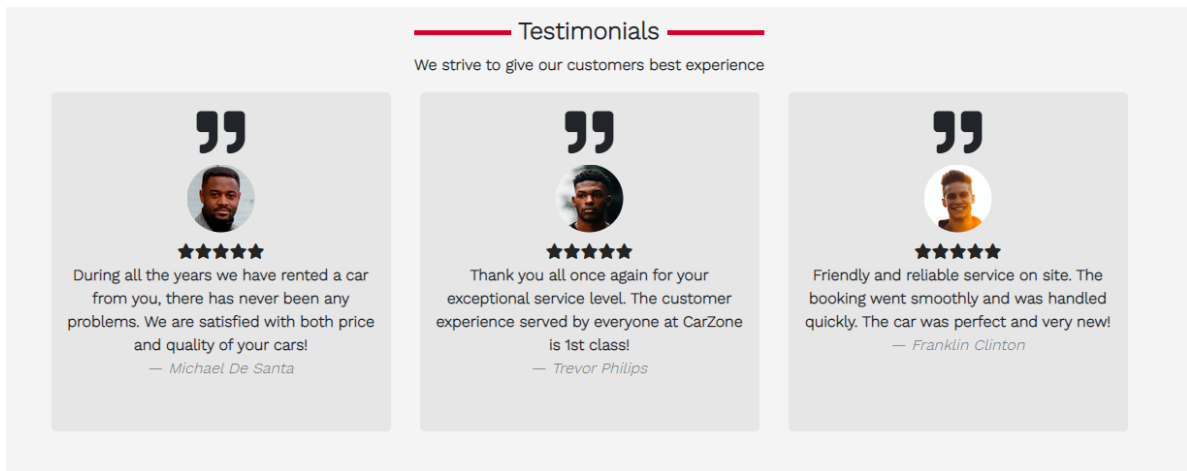

Sekcija sa utiscima

Sekcija sa utiscima korisnika se dinamički ispisuje iz niza, svaki artikal ima efekat kad se pređe mišem preko artikla.
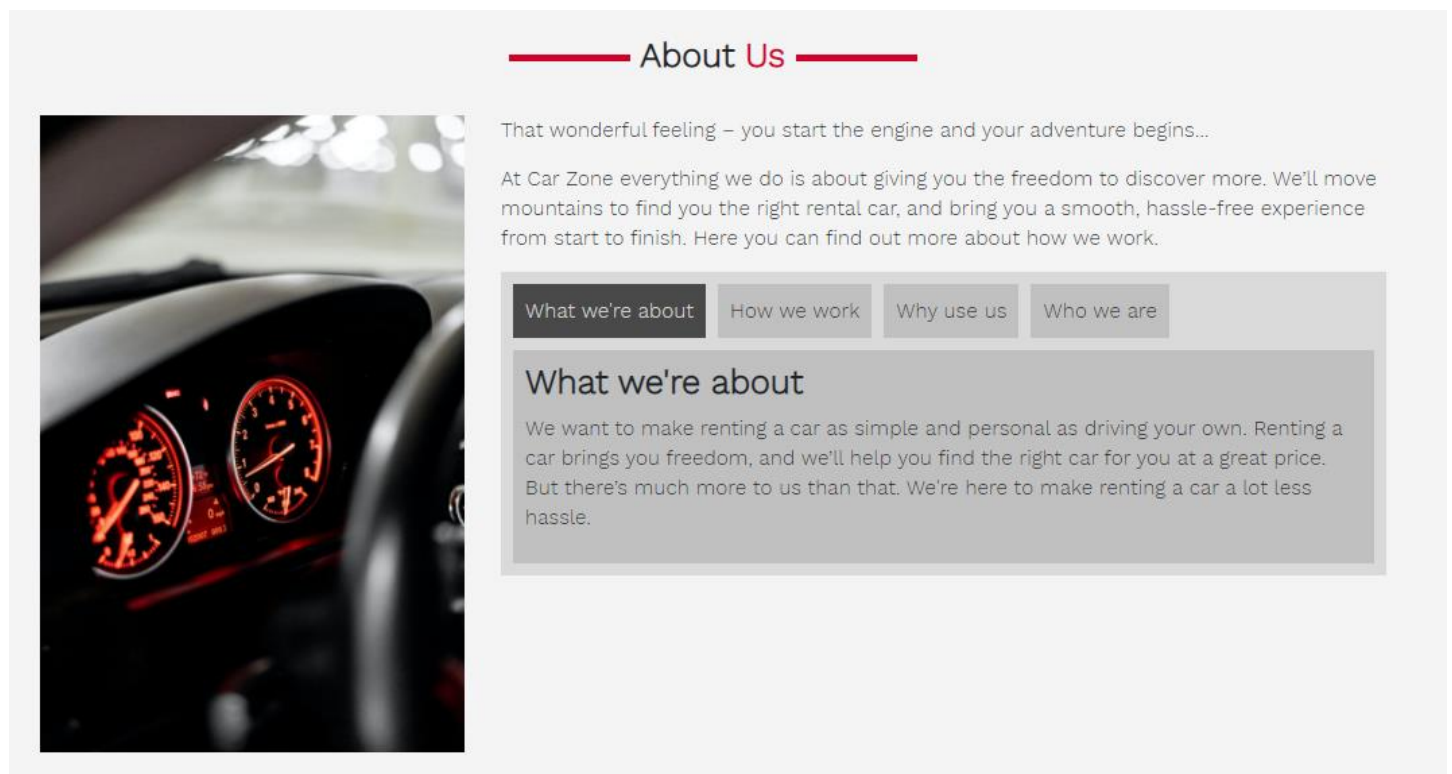

Sekcija „About us" sadrži sliku sa leve strane, dok sa desne se nalazi tekst i isprogramirani tabovi pomoću jQuery-ja. Klikom na bilo koji drugi tab, prethodni tab gubi klasu „active" i dodaje se drugom tabu koji je kliknut i sadržaj ispod se menja za taj tab sa efektom. Sadrzaj je dinamički ispisan.
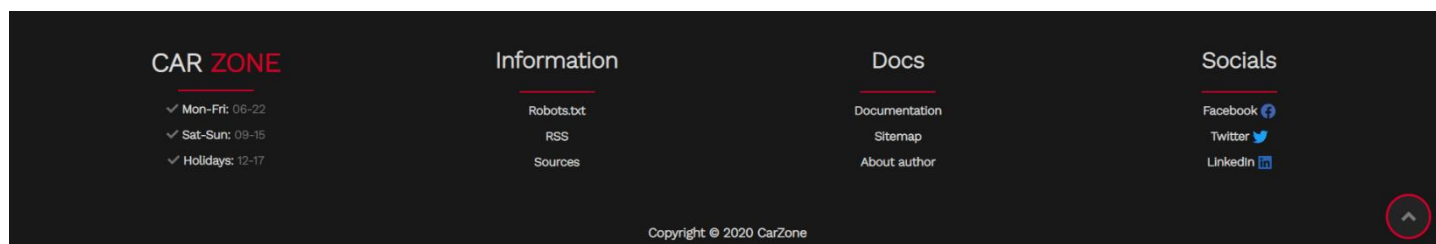

U footer-u se nalaze osnovni podaci o radnom vremenu kompanije, sva potrebna dokumentacija i linkovi ka socijalnim mrežama. Klikom na „About author" dinamicki se ispisuje sadržaj o autoru pomoću modala sa fadeIn efektom.
